The brand "MANANAS" develops through its own filter in different countries,
Japan and Bali, respectively. The base of design is Japan, and the base of production is Bali,
which is blessed with a background in manufacturing. While Japanese sensibilities are
at the core of their creations, they combine traditional and ethnic elements from different cultures to create items
that are handcrafted in a perfect balance. We produce items with a rugged yet urban and sophisticated design,
minimal yet functional details, and a focus on design, material selection, and manufacturing methods.
The brand pursues comfort and ease of use, and offers products that can be worn every day and can be used for a long time without getting bored.
